

W. C. T. U. INSTITUTE.

A TWO-DAYS' GATHERING IN THIS CITY.

Mrs. May L. Woods of Mt. Vernon and Miss Charlotte V. Barnum of Michigan in charge.

A two-day, W. C. T. U. Institute was held in this city Sunday and Monday. The institute was conducted by Mrs. May L. Woods, of Mt. Vernon, who is a state lecturer and an organizer, and Miss Charlotte V. Barnum a prominent W. C. T. U. worker of Michigan. The opening session was held at the M. E. Church, South, Sunday morning with an address by Mrs. Woods on the "Object of the Institute." The speaker gave as the object of the institute an endeavor at instructing the W. C. T. U. workers to better knowledge of the manifold work of the organization in its many and varied departments, and to arouse greater enthusiasm in the work.

In the afternoon the institute was held at the Christian church. Mrs. Woods gave a talk on the Loyal Temperance Legion which is a branch of the W. C. T. U. The object of the Legion is the systematic study of the temperance question in a lot of phases. There is a regular course of study in the work after which the graduates are provided with diplomas. There will be a state convention of the Legion at Springfield sometime soon at which many will receive diplomas for having finished the work. A number of names were taken at the close of the meeting for the purpose of organizing a Legion in Jasper. Before the end of the institute a Junior Legion was organized and will be in charge of Mrs. G. C. Lock. A senior organization will probably be organized later.

Two sessions of the institute were held Monday at which the program was carried out practically as published in last week's paper.

Miss Barnum who was here in the interest of the W. C. T. U. work is an excellent elocutionist and added greatly to the interest of each session by appropriate recitals.

On Monday evening a recital was given at the M. E. Church under the direction of Miss Barnum. Miss Barnum's part of the program consisted of readings of a serious and homeous character and showed the speaker to be master of the elocutionary art. The musical part of the program was in charge of Mrs. J. F. Lewis and notwithstanding that it was prepared within a few hours notice it was well rendered. It consisted of vocal solos by Rev. T. H. Prall and Miss Edith Barrett, a quartet composed of Miss Barrett, Mrs. Lewis, Homer Deaton and Mr. Lewis, and an organ solo by Miss Lewis.

A GRANITE SHOWER.

Friends Of Mr And Mrs Roy Boucher Give Them A Surprise.

The friends of Mr. and Mrs. Roy Boucher gave them a happy surprise Monday night at the home of J. W. Boucher, in the way of a granite shower. While Roy was heroically endeavoring to produce a pleasant sound by drawing his bow across the fiddle strings, the crowd marched in and almost covered him up with granite ware of all description. Hearing the commotion in the front room his smiling wife came to the rescue and helped to relieve her husband of his embarrassment.

The evening was pleasantly enjoyed in games and music, a can can Indian dance being one of the features engaged in by the gentlemen present. During the evening Warren Linn made his first public appearance as a month organ artist playing his own accompaniment on the cabinet organ.

DISHES ALL BROKEN.

JASPERIANS IN CALIFORNIA EARTHQUAKE.

Mr And Mrs Clarence King's Home Badly Shaken Up And Suffered Some Damage

Mrs Chas Davis of this city has just received a letter from her sister Mrs. Clarence King who are now located at Napa City, within 48 miles of San Francisco, telling of their experience in the recent earthquake. Their house was badly shaken up and practically all of their dishes were thrown from the shelves and broken. In fact almost everything breakable in the house suffered more or less damage including a large parlor lamp which was shaken from the center table. It was indeed a thrilling experience for them and they consider themselves fortunate in escaping with their lives.

WON A SCHOLARSHIP.

Chester Melton May Attend Westminster College.

Chester Melton, one of this year's graduates of the Jasper High school has won a year's scholarship in Westminster College at Fulton, having received the highest percentage in the three years course in the Jasper High school. That institution offered a year's scholarship in their school to the young man in the various high schools of the state who received the highest grades in the high school course. The scholarship takes with it all expenses for the year excepting board. Chester is thinking seriously of taking advantage of the college's offer.

BRIDE IS KNOWN HERE.

Stella McKinsey Marries A Kansan.

"This morning Mr Earl Burke and Stella McKinsey accompanied by Mr. Burke's sister Blanche drove to Iola Kansas where Mr Burke and Miss McKinsey were united in marriage. Mr. Burke is an efficient rural route carrier from Savonburg, and Mrs Burke is the daughter of Mrs E Sparks of the Elmore Hotel. Stella and Earl as we know them, have the best wishes of a very large circle of friends including the Enterprise. This came as a surprise and too, just as we were going to press as young people guarded well their plans made secret purposely intending to surprise their friends. The wedding party got caught in a soaking rain on their way home and it is to be hoped that it may have dissolved all their future misfortunes. We have learned nothing of their future plans."

The above is taken from "The Elmore Enterprise." Miss McKinsey was a niece of E D Owen of this city and is well known in and around this city having lived here a good many years. Her many Jasper friends extend congratulations.

SEEMS TO MEAN BUSINESS.

What A L McCawley Will Do If Elected Attorney.

A. L. McCawley who has announced himself as a candidate for prosecuting attorney on a law enforcement platform was in the city last week in attendance at the district conference. While in the city he was a caller at this office. Mr McCawley talks as though he means business when he says that he will enforce the law without fear or favor if he should be elected prosecuting attorney of Jasper County. It seems that Mr. McCawley has entered the race with his clear-cut platform without consulting the bosses of his party, which means that he will probably have them to over power if he succeeds in getting the nomination. For this reason his campaign will be watched with a great deal of interest by those who are in favor of enforcing the laws.

TELLS OF EARTHQUAKE

Continued from page 1

and is connected with this river by a channel 4 mi. long. There is a wharf here, which has a cement wall around it and now it is about 6 feet down to the water from the top of the wall and during the earthquake a wave rolled over this wall and half way across an 80 ft. street. So you can imagine how hard a shake we got. One school house was damaged so much that it is unsafe, and the courthouse, a granite building, was cracked pretty bad inside and one cross wall separated about 1 1/2 inch from the main wall.

Charley Kerney who is soliciting for the Sunset Telephone Co., was in the third story of the hotel and said that when he saw the chandelier sway back and forth it made him feel rather shaky.

Although property was damaged some here, no lives were lost, while at San Francisco about 93 miles from here, the death list may reach a thousand and the damage to the town was great; not only by the earthquake, but by fire also.

At San Jose a great fire was made in the earth. The water in one of the elevated tanks here splashed with such force against the side of a barn as to knock it in.

Stockton is about 150 miles south of Chico; and as a person travels through the country they see large fruit farms, stock ranches, vineyards and hop fields. The fruit trees were most all through blooming when we reached California in the middle of March, so the fruit is quite large now. One of the most curious sights I have seen is a fig tree; the branches grow quite low and when the tip end of the branch reaches the ground it takes root and sends up another tree. The fig is not formed by blossom, but the tiny fig itself bursts through the bark and grows right on the limb.
